BEEHIVE

STRATEGIC COMMUNICATION

We are all increasingly aware of the negative impact our consumption has on the planet and society. Our expectations are also rising for businesses to stand for more than profits. We expect the companies we work for and buy from to do good — for employees, customers and communities. These shifts are changing what we buy, where we work and how we invest. We expect businesses and brands to be more transparent about purpose, operations, actions and investments.

The fundamental role of business is changing. We are experiencing an historic global culture shift to harness the power of business to help address society's greatest challenges. Businesses have a responsibility to behave responsibly, intentionally create a positive impact and use their power as a force for good. Organizations are more successful by every measure when they know why they exist, what they stand for and how to focus on strategies to achieve their goals

Beehive is one of 19 Minnesota companies and 1,235 U.S. companies that are Certified B Corporations and meet the highest, independently verified measures of balancing profit and purpose. That means we are reviewed and scored in social and environmental performance, public transparency and legal accountability to earn and maintain B Corp status. We maintain our status through everyday decisions and actions, and a commitment to share our progress with transparency.

We are a small company, but our impact ripples to millions. We are dedicated to making that impact positive for our people, clients, partners and communities.

THE B LAB B CORP ASSESSMENT IS BEEHIVE'S THIRD-PARTY STANDARD

Beehive Strategic Communication's Board of Directors certifies it has chosen the third-party standard of the B Impact Assessment, which is administered by B Labs — a non-profit organization that serves a global movement of people using business as a force for good. Beehive's Board of Directors certifies the standard is independent and approves the following report.

After completing the B Impact Assessment, undergoing a rigorous evaluation process and earning a qualifying score, B Lab in November 2018 certified Beehive Strategic Communication as a Certified B Corporation. Certified B Corporations are businesses that meet the highest standards of verified social and environmental performance, public transparency and legal accountability to balance profit and purpose.

Beehive received a certification score of 88.6 out of a possible 200 points on the B Impact Assessment, which reflects our strong commitment to making the world a better place. Organizations must earn a minimum score of 80 points on the B Impact Assessment to be certified as a B Corporation. They must also meet with B Lab staff to review the completed B Impact Assessment and submit confidential documentation to validate responses. To maintain certification, Beehive will update our B Impact Assessment and verify our updated score in 2021. Re-certification is required by B Labs every three years.

PUBLIC BENEFIT STATEMENT

We work and live with purpose, every day. We believe that to be authentically purpose-driven means we must live our purpose inside and outside our company, across all parts of our business, with our employees, partners and clients, and in our communities.

We know clear, consistent communication is a powerful differentiator inside and outside organizations. It builds awareness, understanding and trust. And when trust is high, businesses grow. When businesses grow, communities grow. And we all do better.

We have built a positive, conscious and inclusive workplace culture where our values flourish and our team is inspired to grow and do its best work.

Beehive was named a Best For the World 2019 honoree by B Lab in the Workers category. B Lab annually recognizes the top-performing B Corps creating the greatest impact through their businesses. Honorees in this category are recognized for having the highest worker impact by earning a score in the top 10% globally on the B Impact Assessment, which evaluates practices like job-flexibility, compensation, benefits and more.

EXAMPLES OF BEEHIVE'S WORKER IMPACT

- Our Employee Handbook includes a non-discrimination statement, anti-harassment policy, statement on work hours, pay and performance issues, and policies on benefits, training and leave.
- Employee satisfaction is over 90%. Beehive's eNPS score is a world-class +100.

Job Flexibility & Corporate Culture

- Health and wellness initiatives include these and more: company wellness program, company incentives for health and wellness activities, and access to an Employee Assistance Program.
- We support worker job flexibility options like flex-time work schedules and telecommuting.

CHALLENGES

Beehive, at this time, is not structured in a way that employees can be granted stock, stock options or stock equivalents (including participation in an ESOP or other qualified ownership plans) in the company. We do not currently employ part-time workers, which limits our impact on that population of the workforce.
