Reservoir SBC Benefit Purpose is

To design, manufacture, and distribute an energy efficient solar food dryer. The intended benefits are to increase the preservation and use of locally-grown food. A portion of the proceeds from sales in developed nations will be used to support activities in developing nations. At least fifty percent of the solar food dryers will be provided to disadvantaged smallholder farmers in developing nations, through activities and sales terms that stimulate and support their adoption and use.

This same purpose now also extends to the other two products in our climate-smart agriculture portfolio for small farmers: the no-till hoe and the cargo bike.
