Office of the Minnesota Secretary of State
Minnesota Public Benefit Corporation / Annual Benefit Report
Minnesota Statutes, Chapter 304A

Read the instructions before completing this form
Must be filed by March 31
Filing Fee: \$55 for expedited service in-person, \$35 if submitted by mail

The Annual Benefit Report covers the 12 month period ending on December 31 of the previous year.
Notice: Failure to file this form by March 31 of this year will result in the revocation of the corporation's public benefit status without further notice from the Secretary of State, pursuant to Minnesota Statutes, Section 304A.301

1. Corporate Name: (Required) Research and Development Laboratories General Benefit Corporation
2. The public benefit corporation's board of directors has reviewed and approved this report.
3. In the field below, enter the information required by section 304A.301 subd. 2 or 3 for the period covered by this report, (see instructions for further information): Note: Use additional sheets if needed. (Required)

See attached.

4. I, the undersigned, certify that I am the chief executive officer of this public benefit corporation. I further certify that I have signed this document no more than 30 days before the document is delivered to the secretary of state for filing, and that this document is current when signed. I further certify that I have completed all required fields, and that the information in this document is true and correct and in compliance with the applicable chapter of Minnesota Statutes. I understand that by signing this document I am subject to the penalties of perjury as set forth in Section 609.48 as if I had signed this document under oath.

RE: Annual Benefit Report of Research and Development Laboratories General Benefit Corporation

R&D LABS has pursued general public benefit with reference to B-Lab's independent third-party standard, Impact Assessment, by identifying and researching global problems and solutions for sustainable development as well as how to maximize net-positive impact. B-Lab's Impact Assessment is being applied in a manner consistent with the application in prior reports.

Their activities that correlate directly with B-Lab's Impact Assessment include reducing their footprint by reusing, recycling, and composting; installing energy efficient lighting and computing resources; improving the sustainability of their policies and procedures.

The main circumstance that hindered efforts to pursue or create general and specific public benefits was limited financial resources.

Regarding specific public benefits, R&D LABS identified and researched:

- facilities and businesses to acquire, which are intended to generate revenue used for funding sustainable development. Letters of intent were submitted for a portfolio of facilities as well as a business that included a facility more capable of supporting sustainable development projects.
- methods to obtain required results. The first stage of the vertical agriculture program continued to monitor variables.
- different approaches to increase both solar power systems and waste to energy applications. The sustainable architecture project progressed with the fabrication of proof-of-concept models of key components.
- the acquisition of facilities and businesses in related industries. Letters of intent were submitted for a portfolio of facilities that would have made a positive impact on the energy, transportation, recycling, and housing industries.

This annual benefit report was approved by R&D LABS' board of directors on 3/28/22.
