HISTORY OF VIRIDI GROUP

Viridi Group SBC was founded in 2022 as a result of restructuring the family of Apex companies; Apex Water Solutions, Apex Facility Solutions, and Apex Arena Solutions.

The Apex family of companies were incorporated as a Minnesota Public Benefit Corporation on January 2, 2015. The Apex companies have changed their status from SBC to LLC, Qualified Sub Chapter S corporations, as subsidiaries of Viridi Group, SBC as of July 30, 2021.

Viridi Group's goal is to improve the environment by upgrading the energy efficiency of buildings, reducing both the carbon emissions and pollution that is released to the environment from these facilities. The company also serves the less fortunate by helping alleviate poverty, improving educational opportunities, providing housing and addressing the exploitation of children.

PURSUIT OF OUR MISSION

With regard to the period covered by this report, January 1, 2022 to December 31, 2022, Viridi Group pursued the specific benefit purpose stated in its articles of incorporation in the following ways.

Viridi Group worked with a number of school districts and municipalities to help them operate more efficiently. Education facilities have the unique challenge of dealing with many students, staff and activities, as well as maintaining several buildings, some of which may be spread apart by several miles. Viridi Group aims to help keep education facilities organized so everyone can do their jobs efficiently, as well as keep the buildings running efficiently and on budget. In the municipality sector, our programs can be a great way to address deferred maintenance, improve service to residents, increase energy efficiency and implement renewable energy solutions.

Viridi Group also worked with commercial and industrial clients to treat their wastewater streams, removing contaminants that are normally released into the environment. With our treatment processes and technologies, it's possible to not only recover pure water, but we can also recover the valuable nutrients and fertilizers in a way that is cost effective, environmentally friendly and energy efficient. We currently have a number of projects under construction, as well as some projects that we have been hired to redesign in order to work more efficiently for our clients.

We believe that Viridi Group was successful in achieving the goals of our specific benefit purpose in the following ways.

In the projects completed with our clients in 2022, we will save them an estimated 341,443 kWh of electricity annually. These projects were completed at various times throughout the year. When we add those projects to the past projects our company has completed for our clients, the total energy savings are an estimated 26,455,650 kWh of electricity and 190,168 therms. According to the EPA, this equates to over 19,755 metric tons of CO2 reduction. This is equivalent to 4,257 passenger vehicles driven for one year!

We did not install any new solar systems in 2022, however with the past projects our company has completed, we will save our clients an estimated 13,986,303 kWh in renewable energy (Solar). According to the EPA, this equates to an additional 9,912 metric tons of CO2 reduction, which is equivalent to an additional 2,136 passenger vehicles driven for one year!

As a Specific Benefit Corporation in MN we strive to alleviate poverty and homelessness, as well as improve education opportunities and address the exploitation of children. We tithe corporate profits to the Apex Foundation to assist with this mission.

CERTIFICATION BY THE BOARD MEMBERS

The undersigned, being all the directors of Viridi Group, SBC, hereby acknowledge and certify that we have reviewed and approved the enclosed Annual Report.
